### PENINSULAR AND ORIENTAL COMPANY.

QUARANTINE AT EGYPTIAN AND CONTINENTAL PORTS.

ARRANGEMENTS have been made for PASSING the Company's steamers THROUGH THE SUEZ CANAL in QUARANTINE, thus avoiding any detention in Egypt.

The HOMEWARD MAILS are now being landed at VENICE, but the Quarantine, which is still imposed at this and all other Continental Ports, PREVENTS the landing of PASSENGERS, and the QUICKEST route by which they can reach England is to proceed to PLYMOUTH DIRECT.

The passages of the steamers will continue to be accelerated as much as possible. The last four steamers have made the voyage from Bombay to Plymouth in 23 days. Until the Continental route is again open, passengers taking three-monthly Return Tickets will be allowed an extension of a fortnight, if required.

F. D. PARKER,
Superintendent.

# COMMERCIAL INTELLIGENCE

THURSDAY EVENING, SEPT. 27.

THE day of departure of the P. and O. Mail steamers for Europe having been changed from Tuesday to Friday, we have ten days' transactions to record. In the Export business generally there has been a want of animation, and we have had frequent interruptions owing to native holidays. During the monsoon months, the most prominent feature is the state of the weather for the growing crops; the rain-fall at the beginning was most favourable; thereafter complaints of drought became general; this was followed by timely showers, and at the time of writing the rains appear to be heavy over the most important portions of the Presidency. Indeed, in some places the moisture has been more than ample, and recent advices from the great Cotton-growing districts of Berar show that if the present state of things lasts the damage may be serious. In Gujarat, the crops are favourably reported on. Taken as a whole, the out-turn of the Kharif crops ought to be pretty well up to an average, while the effect of the late rains on the black soil points to the prospect of large Rabi or winter crops, Wheat and the leading descriptions of Oilseeds being among these. In Cotton, there has been a moderate business done, but the chief shipments at the present time consist of Wheat and Seeds. In freights, we are unable to report any improvement; for Liverpool via Canal 20s. is the current rate for weight and 22s. 6d. for measurement; but for forward loading steam-ship owners are asking higher rates. For the Continental Ports, tonnage is offering at comparatively low quotations. In Imports, there has been a better feeling, particularly for Grey Piece-Goods, on which an advance has been established; Metals are steady. About the date of our last, money increased in demand, but the tone at the close is somewhat easier; Government Paper has given way a little owing to the increased demand for accommodation; Shares are rather lower. In Sterling Exchange there has been a slow but steady improvement, and an advance of nearly one-half per cent. has been established. The results of the working of the Exchange Banks for the past half year are now being made known, and to-day the CHARTERED BANK OF INDIA, AUSTRALIA, AND CHINA announce a dividend of 3½ per cent. for the six months, which will doubtless give satisfaction.

MONEY.—On the 21st instant the Bank of Bombay's rates of discount and interest were raised one per cent., making that for demand loans six per cent. In the Bazaar there was also a better enquiry apparent for some time, but since the Bank of Bombay's statement was issued on Monday the 24th, showing that the Cash Balance had increased to 110 lakhs, an easier feeling became apparent. In Calcutta as high as 6½ per cent. was paid for loans at call, and to-day the Bank of Bengal's rates were advanced one per cent. On Calcutta, we quote Rs. 99½ per cent. for sixty days' bills, Rs. 99 9-16 for thirty days', and Rs. 100⅛ for demand.

EXCHANGE for the mail opened firm after the resumption of business on Thursday the 20th instant, on the basis of 1s. 7⅞d. for demand Bank bills, and 1s. 7¾d. for three months' sight Credits. The fluctuations have been of a limited character, and up to Wednesday the 26th there was a gradual improvement. On that day Bank demand paper could be had at 1s. 7 11-16d., and three months' Credits closed at 1s. 7 15-16d. The feeling to-day is not quite so strong, the following being the closing quotations :—

| | |
|---|---|
| Bank Bills on demand | 1s. 7 21-32d. |
| Do. Telegraphic Transfer | 1s. 7 19-32d. |
| Do. Three Months' Sight | 1s. 7 13-16d. |
| Credits, do. | 1s. 7 29-32d. |
| Francs, do. | fcs. 2·09½ |

A moderate amount of transactions have been reported, chiefly in Bank bills and Mercantile Credits for forward delivery—for the former 1-32d. above the current ready rate was obtainable; for the latter, sales were made at 1s. 7 31-32d. up to the end of the year; and 1s. 8d. is about the figure for early next season. Some Telegraphic transfers for November were done at 1s. 7⅞d.

Bar Silver has advanced from 50 11-16d. to 50¾d., but two days ago 1-16d. more was asked by sellers. The specie shipments during the past ten days consist of £90,000 in Silver and £10,000 in Gold for Bombay, and £160,000 in Silver for Calcutta.

The Secretary of State's Telegraphic transfers were sold to a large extent, 1s. 7⅞d. having been freely paid. With dear money in Bengal there is every likelihood of this figure being maintained, and a slight advance is by no means improbable. There is every prospect of a large crop this season, and the price of our leading staple—Cotton—commanding more money in the home markets than it did a short time ago.

GOVERNMENT PAPER has slowly but steadily given way, and a fall of over ¾ has taken place in Four per cents. The business transacted has been comparatively small. We quote 4 per cents. Rs. 98⅜; 4½ per cents. Rs. 103¾.

SHARES.—Bank of Bombays, after declining to Rs. 748¾ close steady at Rs. 750. There was a spurt in Port Canning shares, and they advanced to Rs. 430. A weaker feeling has latterly set in, and at the close there are sellers at the low rate of Rs. 365 per share ex-div. Colaba Land and Mill shares were in limited request, and have fallen to Rs. 820. Press stock has been in better demand, and in some cases the rates are higher. We have heard of sales having been made of Akbars at Rs. 1,090, Alberts at Rs. 1,170; Beras at Rs. 655; Bombay Cottons at Rs. 1,050; Forts at Rs. 2,950; Mofussils at Rs. 412½ ex-div.; New Indians at Rs. 237½; and Sind and Punjaub Cottons at Rs. 1,250. In Mill Companies the declining tendency reported in our last continued for a few days, and a further drop was established in many instances. Latterly, however, a better feeling was apparent, and rates for some of the Mills show a slight rise on those ruling last mail-day. Business is reported to have taken place in Albert Edwards at Rs. 585; Bombay Unites at Rs. 1,030; Coorlas at Rs. 850 ex-div.; Empress at Rs. 870 ex-div.; Dhurrumseys at Rs. 605; Framjee Petits at Rs. 900; Hindustans at Rs. 1,120; Hydrabads at Rs. 1,265; Jewraz Balloos at Rs. 1,165 ex-div.; Khataos at Rs. 1,065 ex-div.; Madras Uniteds at Rs. 3,025 ex-div.; Manockjee Petits at Rs. 1,355 ex div.; Mazagons at Rs. 240 ex-div.; Morarjees at Rs. 1,570; New Great Easterns at Rs. 1,045 ex-div.; Parells at Rs. 325; People of Indias at Rs. 295; Prince of Wales at Rs. 275; Sholapores at Rs. 1,500; Southern Indias at Rs. 515 ex-div.; Victorias at Rs. 790 ex-div.; and Western Indias at Rs. 1,030. In Miscellaneous stocks Bombay and Burmah Tradings have given way to Rs. 4,400, and a few Kemp and Company's shares were placed at the reduced rate of Rs. 353 per share.

## IMPORTS.

Our market for *Grey Piece-Goods* opened after the Parsee New Year festival with a better tone, and dealers have succeeded in establishing an advance of one to two annas per piece in the leading descriptions of 8¼lb. Shirtings. The demand, however, has been freely met by native importers who hold large stocks. To all appearances the upward movement has spent its force for the present, and in a short time the Dewalee holidays, which may check business to some extent, will be upon us. In *Local-makes* there has been a fair trade done, but in consequence of the ample supplies held, prices remain unchanged. *Grey Yarns* are very dull, the chief cause being of a restricted character, and, failing other to effect sales, a reduction in prices would be necessary.

METALS.—*Copper Braziers* are in fair request at Rs. 46 to Rs. 46½ per cwt. for spot parcels, and Rs. 45½ for forward delivery. *Yellow Metal Braziers* are not quite so active. Sales of Elliott's Brand have been made at Rs. 35-5 per cwt. on the spot and Rs. 35 to arrive.

COALS.—There is a better enquiry, and prices are advancing. We quote :—Welsh Hartley Rs. 16 and West Hartley Rs. 16½ per ton alongside.

## EXPORTS.

COTTON.—The market here has been quiet but steady. There has been a fair enquiry for spot parcels, as well as for the New Crop, and a moderate business in both has resulted. Prices on the whole show a slight advance on the spot when compared with those ruling at the departure of last mail; New Cotton, however, is a shade easier. Reports to hand from the growing districts show that the rainfall is excessive in some parts of Khandeish and the Berars, and it has already caused some damage by shedding, and should it continue to rain, serious injury might arise. A break in the shape of fine weather is much wanted. From Guzerat the accounts are favourable, but sunshine would materially assist the growing plants.

The movements of Cotton to date show the following comparisons with the two previous years :—

| *Receipts.* | 1883. | 1882. | 1881. |

| For the Week | 6,618 | 7,054 | 3,106 |

The following are to-day's quotations for Full-pressed Cotton, with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without commission :—

| | Per Candy. | Per lb. C. & F. d. dec. |
|---|---|---|
| Comrawuttee, F. G. | Rs. 176 | = 4·47 |

| New M. G. Broach, Good, March | " 209-210 | = 5·31 |
| " Comrawuttee, Good, March | " 179-180 | = 4·59 |
| " Bengal, Good, January | " 146 | = 3·72 |

WHEAT remained dull for a few days after the departure of last mail, and a slight drop in prices took place all round. This enabled operators to make several purchases, but the tone throughout has been quiet. We quote :—White Pessie No. 1 Rs. 3½ to Rs. 33 per candy; Yellow Rs. 27½ to Rs. 28, Luskari Rs. 26 to Rs. 26½; Catha Rs. 24 to Rs. 24½.

In *Linseed* the feeling in the early part of the week was steady, and sales were made at as high as Rs. 5-15 per cwt. A quieter tone has latterly prevailed, and the supplies from up-country being on a more liberal scale, the rate fell to Rs. 5-13½ for ready and Rs. 5-12 for delivery in two months' time. At the close sellers were asking Rs. 5-14 to Rs. 5-14½. Some transactions in New Seed for April-May delivery are reported to have taken place at Rs. 5-8 to Rs. 5-9 per cwt.

*Rapeseed* has been firm, and as stocks on the spot are of a limited nature, prices have advanced about 4 annas per cwt. all round. A fair number of transactions has taken place. At the close there is a quieter feeling apparent with a slight reduction in prices. We quote :—Guzerat Rs. 8-6 to Rs. 8-8 per cwt; Cawnpore Rs. 8 to Rs. 8-2; Brown Rs. 7 to Rs. 7-2.

*Gingelly Seed* is now out of stock, but some transactions in the new crop are reported, say White and Black Mixed for February-March delivery at Rs. 34 to Rs. 36, and White for March delivery at Rs. 37 per candy.

*Poppy Seed* has been done to a small extent at Rs. 6-5 to Rs. 6-6 per cwt.

## THE VICEROY'S TOUR.

## THE BENGAL RENT BILL.

The Bengal Rent Bill will come before the Select Committee about the 15th of November. The tactics of the opposition will doubtless be obstruction, but as it is recognized by the Legislature that keeping questions relating to land open longer than is absolutely necessary is provocative of evil, an attempt will be made to settle the question during the coming season.

## OTHER LEGISLATIVE MEASURES.

Before the Council adjourns to Calcutta two more meetings will be held. It is expected that the Agricultural Loans and Punjab Local Self-Government Bills will both be passed. The Punjab Municipalities Bill will probably stand over until next Simla season. The only other Bills to be passed here this season are the Native Passengers, Cattle Trespass, and Exhibition Bills.

THE Hon. Mr. Hope, the Minister of Public Works, leaves Simla on 27th of October, and visits, among other places, Hyderabad, Bangalore, Mysore, Calicut, Trichinopoly, Tanjore, and Madras, and then Sholapore, Ahmednuggur, and Munmar on his way *viâ* Allahabad to Calcutta, which place he expects to reach on 3rd December.

It is stated that the Hon'ble Lieutenant-General Wilson, C.B., the Military Member of Council, will leave Simla immediately after the closing of the public offices, and proceed to Peshawur and Cherat. After seeing the Attock Bridge he will remain for a short time at Rawul Pindi, and then go on to Mooltan *viâ* Lahore, at Mooltan visiting the new barracks. The General will next go to Sukkur to make a careful inspection of the site proposed for the new bridge over the Indus, upon which to base his eventual recommendations with regard to it, and from Sukkur on to Kurrachee and Bombay. Should time permit, he will then pay a visit to Pachmari, and probably meet the Commander-in-Chief there, arriving in Calcutta about the end of the first week in December. General Wilson will probably be accompanied as far as Bombay by Colonel Innes, V.C., Inspector-General of Military Works.

"It is understood that the Secretary of State adheres to the opinions he expressed on a former occasion, without attempting to answer the objections of the Government of India, and still desires that the question may be referred to the local Governments." The *Pioneer* says:—"Fortunately for the interests of fair play to private trade, the majority of those Governments—Bengal always excepted—have already expressed their views in a practical and satisfactory fashion; and although Hyderabad, the Central Provinces, and the Punjab have yet to declare themselves, the first two are not of much importance, and Sir Charles Aitchison, who is, above all things, a sound Liberal in all economic questions, has already set on foot such measures of reform in the management of prison manufactories under his Government as to render the formal assertion of his views of secondary importance."

THE scheme for the reclamation of the Mughya Domes in the Chumparun District has, it is stated, proved a complete success. This tribe, which formerly led a life of crime, is being rapidly brought under civilising influences. In the two Dome settlements which have been formed—one at Burgaon and the other at Futtehpur—the men have been divided into several work-gangs under overseers of their own clan, who are responsible for the land allotted to them being properly cultivated. The crops when reaped are divided among the members of the gangs, for whom houses have been built and farm stock and agricultural implements purchased. The Domes have shown by their orderly and industrious habits how much they appreciate the efforts made on their behalf, and the fact that crime has decreased and that property is now quite secure in their neighbourhood proves how thoroughly this class of robbers has been reclaimed from its predatory habits.

THE Peshawur correspondent of the *Statesman*, says that "the Amir has sent down a regiment to escort the grant of arms made by the British Government from Dakka. The Amir's attendants and the chiefs of his durbar are surprised that considering that the British Government has granted a liberal subsidy to him, with supplies of arms, &c., His Highness is not more pleased. But it is said that the Amir has not returned to Kabul pleased with the British Government. He wanted to visit India, but he received no encouragement from the Viceroy.'

SAYS the writer of the *Pall Mall Gazette's* "City Notes:"—"The Sultan has effectually settled the question of the construction of the Jordan Canal for the present. He has refused to allow even the survey to be made, without which proof is wanting to establish the fact that the proposal is at all a tangible one. At the meeting of the Balloon Society last week, Mr. Kimber declared that Admiral Inglefield could not have been properly instructed, and that he had gone about the business in a manner that was not likely to secure the concession desired. There is an amusing element about the matter, one instance of which was supplied by Captain Molesworth, who seriously stated that, whatever else the scheme had done, he believed that more people had read their Bibles as a consequence, to see what the prophecies of Ezekiel were, than at any previous time."

THE *Standard's* correspondent at Agram supplies some explanations of the feelings which have produced the revolt in Croatia. According to this writer, though Croatian national feeling, aggravated by Magyar bullying, has much to do with the disturbances, agrarian distress has even more to do with them. The same causes, in fact, which have produced the outbreak against Jews in Hungary are producing a revolt against Magyars and Jews in Croatia. Race antipathy in each case augments the violence of the revolt, but it is not the cause of it. The causes are oppression and distress. The agrarian question is the question in the future of Austro-Hungary, and more important than all the innumerable race dissensions which distract her put together.

THE *Spectator* is glad to see that the Lieutenant-Governor of Bengal has not only strongly expressed his wish to see qualified medical women practising in India, but has discouraged peremptorily the idea of requiring from them any less thorough medical culture than is required from their male colleagues. "There is no quarter of the world where highly qualified medical women might do more good than in India, and it is encouraging to find that Brahmo opinion is as favourable to the experiment as cultivated European opinion itself. The efforts which are being made in this country to educate native women as physicians, and to send them out with a guaranteed income for a certain term of years, will evidently meet with no obstruction in India. Educated female physicians in adequate numbers would do more to leaven Indian households with sound medical, sanitary, and moral principles, than all the medical men whom we could send to India, who never really reach the interior of a Hindoo household at all."

THE dress parade at Saratoga this season is reported to have been distinguished beyond all its predecessors by the extravagance of the toilettes of the ladies. Indeed, the dazzled reporter records with admiration that the wife of a Philadelphia millionaire appeared in laces and silk that were valued at £6,000, while her diamonds represented a value of £15,000. Her uniform on parade therefore represented a cash value of £21,000, and this appears to have been regarded as its chief attraction. But if a mere display of wealth is all that is required in a dress parade, why, asks the *Pall Mall Gazette*, do not some millionaires' wives appear in mantles made out of thousand pound notes? It would be more original, more effective, and not one whit more vulgar than the parade of the £21,000 costume which attracted such attention at Saratoga.

A PARAGRAPH in a home paper states that "the Salvation Army is about to celebrate its eighteenth anniversary, and it is authoritatively announced that whereas at the last anniversary there were only 320 corps and 766 officers, the Army now possesses at home and abroad 591 corps and 1,439 officers. The Army has 180 officers abroad. In India a sufficient number of natives has joined the Army to provide interpreters in the most prevalent languages of the principal cities; and the work has been, with the exception of £100 or £200, entirely supported by funds raised in India. In Australian colonies twelve months ago there were only some three or four corps established in South Australia. Now, in the four Australian colonies and in New Zealand the Army has twenty-four corps, under some forty officers. Half a dozen buildings have been erected or purchased. The English *War Cry*, issued once a week twelve months ago, has become a bi-weekly, while eleven other *War Crys* are published in different parts of the world."

LORD COLERIDGE seems to have attracted almost as much attention from those energetic gentlemen, the "interviewers" of the New York press, as if he had been a prima donna or a distinguished Fenian. Of course the reporters attacked "Judge" Coleridge and his friends as soon as they set foot on the soil of the Republic, or rather a little before; and the Lord Chief Justice had to stand the fire of interrogatories as best he might. On the whole, the journalists did not get very much out of their visitor, whose answers were marked by a judicial caution which was highly creditable. He was not afraid of dynamite, he said; and in fact the inquiry whether some harm might not happen to him from the wrath of enraged Irishmen elicited nothing but a smile "of genuine amusement." Whether England could not soon possess a code of laws such as the Americans have was a question which, most people will agree with his lordship, was a large one and could not be answered off-hand. There is a little playful badinage about "Hannen's" taste for tobacco and his appetite for breakfast, which are interesting as showing how even judges in their idler moments, and when under the stimulus of "champagne cocktails"—a drink which had for Lord Coleridge the zest of novelty—can unbend. In one respect the Chief Justice has been exceptionally fortunate. He has known many New Yorkers, but never heard one of them mention the Central Park before. This is indeed a remarkable experience; for the New Yorker has some pride in his city, and is not given to hiding his light under a bushel. Meanwhile it is not unnatural that the Canadians are greatly moved at the report that Lord Coleridge will not be able to visit the Dominion. For the Canadians are anxious in all things to be the equals of their southern neighbours; and seeing that the people of the States have got a trio of English judges among them to say civil things and answer questions, and keep up the dignity of the English Bench, the colonists feel some chagrin in the thought that these advantages will not be granted to themselves.

ONE of the most important of the legislative failures of the last Parliamentary Session, the *Spectator* considers, is the loss of the Medical Act Amendment Bill. "Its object was, in Mr. Gladstone's own words, 'to make the medical profession in the three countries [England, Scotland, and Ireland] one in standard and one in authority, by establishing a common test through which every medical practitioner must pass. This has been the object of an agitation lasting fifty years, and it was confidently hoped that the end had been reached this Session. The medical men, we see, think that this misfortune is due to the want of medical representatives in the House of Commons, or at least of representatives pledged to accept medical opinion on subjects interesting to the medical profession. But we earnestly trust that the mischief will not be remedied in that way. The remedy would be worse than the disease."

## CAVALRY DRESS.

THE appointment of the Committee of Bengal Cavalry Officers—Colonel Mackenzie, President; and Lieutenant-Colonels Pennington and T. Davidson, members—to assemble at Mian Meer in November, of which we gave notice a few days ago, will, it may be hoped, result in what is very much required—the adoption of a reasonable dress for this branch of the service. In no army is there such a tendency as in ours to pile on lace and embroidery without regard to taste and effect so much as to costliness. Tasteful and effective uniforms are to be found in many Continental armies, but the effect is produced at a small part of the cost which in our cavalry service is considered a necessary condition. In the Bengal cavalry the amount of embroidery to be put upon a mere exercence. But oddly enough, the less chance there is of showing off these gorgeous dresses, the more expensive they tend to be, the amount of embroidery culminating in the Hyderabad Contingent, where hardly under circumstances, except on parade, is there a chance of wearing it. It may be hoped then that the report of a committee of three, practical soldiers will be in favour of cutting down all needless expenditure, and making the uniforms of the Bengal Cavalry something that shall be a suitable working dress for poor men who live on their pay. But it is also to be hoped that the love of simplicity and uniformity may not induce them to propose any change in the distinctive colours of regimental uniforms. Each regiment is attached to its own colour and so far from similarity in this respect being a thing to be desired in itself, variety of colour among cavalry regiments is essentially useful on service, when they are brigaded together. The "fad" of invisible infantry will soon, it may be hoped, be exploded; and no army reformer has yet been so eccentric as to propose invisible cavalry.—*Pioneer.*

## TELEGRAPHIC WEATHER REPORT.

SIMLA, Sept. 26.—There has been a further increase of pressure in the north, and a fall in the south; so that the gradients are slighter, and the pressure is daily becoming more uniform. Over Bombay the small depression noticed yesterday apparently still exists, occasioning heavy rain in that province, and drawing the wind into north-east at Bombay. The general atmospheric conditions have undergone little change. Over North-Western India the sky is cloudless. In Madras there is more cloud, but fine weather; while in Assam, Bengal, Burmah, and Bombay there have been showers. The temperature again exceeded 100° in the shade in the North-West yesterday. Rain to-day:—Bombay, 2¾ inches; Rangoon, 1½ inch; Nagpur, 1 inch; Chittagong, ½ inch. Previously, Lucknow, Saugor Island, Raipur, and Bhuj had each ½ inch.

## OBITUARY.

THE death is announced of Mr. Richard Ellis Wilson, a sub-engineer on the Rewari-Ferozepore Railway, aged forty-five. The late Mr. Wilson did good service during the mutiny. As a member of Barrow's Volunteer Horse he shared in nearly every engagement between Cawnpore and Lucknow, in those dark days, and on three occasions he was wounded. At the close of the rebellion he declined to receive either blood-money or compensation from Government, his dues under these heads being, at his request, credited to the fund raised for the widows and orphans of those of his comrades who fell in the fighting.—*Pioneer.*

## THE DEFALCATIONS IN THE BANK OF BOMBAY.

YESTERDAY, at the Fort Police Court, Jamsetjee Pestonjee Madon, a clerk employed in the shroff's department of the Bank of Bombay, was brought up on remand and charged before Mr. C. P. Cooper, with theft and criminal breach of trust in respect of Rs. 15,000 belonging to the bank. Mr. Brown, of Messrs. Hore, Conroy, and Brown, appeared for the prosecution; and Mr. Hormusjee M. Chichgar, of Messrs. Nanu and Hormusjee, conducted the defence. Dinshaw Nusserwanjee, a clerk in the employ of the Bank of Bombay, deposed to having received from the accused, in consequence of directions given to him by the head shroff, Erwinsujee, Government promissory notes of the value of Rs. 3,000, and certain gold ornaments, and to handing over the same to Nusserwanjee, the deputy shroff.

Lewis Francis Gonsalves, a clerk in the office of the French Bank, was next examined. He identified three cheques drawn upon the French Bank—one for Rs. 16,500, one for Rs. 150, and one for Rs. 1,000. He produced these cheques from the custody of the French Bank.

Gunput Succaram, a clerk in the Agra Bank, identified a cheque drawn upon that bank for Rs. 62-8, and produced the same from the custody of the bank.

Dosabhoy Rustomjee Motiwalla, a clerk in the shroff's department of the Bank of Bombay, corroborated the statement made by the witness Dinshaw Nusserwanjee in every material point.

Lewis Francis Gonsalves re-called. He said the cheque for Rs. 16,500 was presented to him on the morning of the 8th August last before office hours, when two or three shroffs from the Bank of Bombay came and demanded the money. He did not pay because there were no funds in the accounts. Upon information given to him soon after by the head shroff of his bank, the money was paid.

Jeejeebhoy Merwanjee Wadia, head shroff of the French Bank, said that on the morning of the 8th August last notes for Rs. 16,000 were received by him to the credit of the account of Dosabhoy Framjee, and their numbers were entered in the bank's books. There were sixteen notes for Rs. 1,000 each. Mr. Gonsalves came to witness before he received these notes, and he gave him certain information. After this was paid and taken in, he made a report at once to the ledger-keeper, and the cheque for Rs. 16,500 was afterwards paid. He had no knowledge of Dosabhoy Hormusjee, who signed that cheque for Rs. 16,500. One Nusserwanjee Pestonjee was the person who had given him the sixteen notes. He knew him as a clerk in the Bank of Bombay, and a brother of the accused.

At this stage the case was adjourned for further hearing to Monday next, the 1st proximo, at 11 a.m.

## DOCTORS' DIFFERENCES.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The acrimonious and discourteous tone of the controversy which has now cropped up from the remarks which fell from Dr. Blanc, at a meeting of the Bombay Town Council held on the 19th instant, is, I think, much to be regretted. It appears that all the combatants have misunderstood the gist of this gentleman's contention, as well as the commentary of the *Lancet* quoted by him, which evidently he could not help doing. The *data* on which the annotation in that medical periodical was based were gathered from reports, &c., published in the Bombay dailies. One angry disputant, apparently with blisaful ignorance, credits the *Lancet* with lack of knowledge of facts. He says that "the Editor of the *Lancet* is not expected to be thoroughly conversant with the arrangements made at the G. T. Hospital and the objects with which the honorary surgeons were first nominated." Perhaps Mr. Pesikaka will be good enough to make him "thoroughly conversant" by a letter concise and to the point, which probably will be placed in the hands of the writer of the article in question, who will deal with it, to doubt, according to its merits. It seems Mr. Pesikaka labours under the impression that the editor, Dr. Wakley, writes all the leaders and reviews which contain the imperatorial pronoun, "we." The unjust and gratuitous insinuation that an "interested party" furnished what is alleged to be an "incorrect communication" is as much unfounded as the recent charge laid at the door of the Supreme Government that Reuter's Simla agency had been "won over" by it. It is to be trusted that the readers of this paper will give as much credence to the one as they do now (at any rate) to the other. The gleanings, whether correct or incorrect, were, as already stated, from the local press, and scarcely from any *ex-parte* representation, which, it made, would have been printed, as a matter like that would not be simply for editorial information.

Dr. Blanc is certainly quite right in urging in the proper quarter that the assistant-surgeons of the Goculdas Hospital should be remunerated, and in doing this in his able speech, he was only reiterating the sentiments of the late lamented Surgeon of that institution. (*Vide* his Annual Report published and reprinted in the local papers at the time.) This recommendation has received the support of the Surgeon-General (Annual Administration and Progress Report of the Civil Hospitals and Dispensaries under the Government of Bombay for 1882), and the Government have been pleased to uphold it (G. R. on above). What more is wanted? The advocacy of the *Lancet* was what every reasonable medical man would wish or expect. It simply maintained that the labourer was worthy of his hire, and that if the public of Bombay expected that the labour tendered to the service of the poor should be of a superior character and type, they ought to pay for it. That there are general practitioners in Great Britain who keep open surgeries, and even drug-shops, no one denies. But the positions of honorary surgeons and physicians are not filled by men of this class. There is no comparison whatever between the two classes, though very often the latter is recruited from the former. This is what appeared on this point in the medical periodical referred to by Dr. Blanc and his opponents, respectively:—"We entertain a strong opinion that such appointments should be properly paid so that the holders may not be compelled by the *res angusta domi* to stoop to the position of drug-dispensing quacks. But if from motives of economy the Government decline to pay them, care should be taken to fence the appointments with such conditions as will make them worthy of acceptance by men of good standing in the profession. Indeed this view not only in the interests of the profession, but in those of the patients. It is surely greatly to their advantage that the surgeons of the hospitals to which they are obliged to resort should be men of high qualifications, and who from their positions would be able and willing, when necessary, to make sacrifices of time and labour for their benefit." The fencing down appointments to the *sine qua non* of not practising pharmacy.

It does seem a thousand pities that these assistant-surgeoncies (and for the matter of that, appointments of assistant-physicians might also be introduced) are bestowed on the junior members of the covenanted and time-honoured Indian Medical Service, unless in exceptional and rare instances where those outside it are distinguished, and enjoy a higher consideration than that of *status*. Are there not of such able and willing to take up these, instead of wasting their time and talents, say, in a small uninteresting and uninstructing civil hospital or native regimental hospital? Would not the Government, the service, and last, but not least, the public be gainers by such an arrangement? Perhaps, Dr. Blanc and others will take an early opportunity to consider the *pro et con* of this momentous question, and to enhance the claims and merits of the service to which they have the honour to belong. In conclusion, it may be observed, by way of warning, that one of the gentlemen who deems it his bounden duty to enter the lists, to attack in the way he does an honoured member of his own cloth (who strives to uphold its dignity) is the same whose name figured, under the head of "Medicos advertizing in Bombay," in the *Indian Medical Gazette*, Aug. 1, 1879.

CONTEMPT OF COURT.

HEERALAL JUMNADASS *vs.* SITTARAM RADHAKISSON.

MR. INVERARITY, instructed by Messrs. Tyabjee and Dyabhoy for Mr. Mahtha, the receiver in the case, moved for a rule *nisi* calling upon the plaintiff to show cause why he should not be committed for contempt for disobeying the order of 30th August, 1883, by which he was directed to produce and give inspection of a certain book to the receiver. His ordship granted a rule as applied for.

## THE NEW DHURUMSEY S. AND W. COMPANY.

GOCULDASS MADHOWJEE *vs.* THE NEW DHURUMSEY S. AND W. COMPANY AND KESSOWJEE J. ADOWJEE.

MR. LANG, instructed by Mr. Pestonjee Kavasjee, appeared for the plaintiff; Mr. Inverarity and Mr. Farran, instructed by Messrs. Crawford and Boevey, for the company; and Mr. Jardine, instructed by Messrs. Prescot and Winter, for the second defendant, Kessowjee Jadowjee. The plaintiff prayed for a declaration whether or not the debentures referred to required to be registered in order that the holders thereof might have a valid charge upon the immovable property of the company comprised in a proposed trust deed for the repayment of the sums payable under the debentures, and whether the company was or was not liable to pay the costs of such registration; that the company and the second defendant might be respectively decreed to specifically perform the agreement entered into with the plaintiff; that the company might be decreed to deliver to the plaintiff and the defendant Kessowjee respectively 1,400 debentures for Rs. 500 each and to execute the trust deed. Further, that if the court should not think fit specifically to perform the agreement, the company might be decreed to pay to the plaintiff the sum of Rs. 6,00,000, &c.

The facts of the plaintiff's case are briefly these. By an indenture of the 26th February, 1879, the company conveyed and assigned to the plaintiff, the second defendant, and Chunda Ramjee the company's property in security for repayment of Rs. 7,50,000, with interest thereon at seventeen annas per cent. per mensem. This sum was advanced in the following proportions:—Kessowjee Jadowjee, Rs. 3,00,000; the plaintiff Rs. 2,00,000; and Chunda Ramjee, Rs. 2,50,000 By an indenture of 3rd September, 1879, the plaintiff and the second defendant advanced to the company a further sum of Rs. 3,75,000. Some further transactions took place between the company and the three parties above named. In October, 1881, the company contemplated the raising of Rs. 4,00,000 by the issue of 2,800 debentures of Rs. 500 each, bearing interest at 9 per cent. per annum, for the purpose of paying off the mortgage debts due to the plaintiff and the second defendant, as well as other debts. On the 8th of that month the plaintiff and the second defendant offered to purchase the whole of the debentures at the rate of Rs. 100-10 for every Rs. 100; and the company accepted the offer. It was further agreed that 1,400 of the debentures should be issued in the name of the plaintiff for Rs. 1,400 in that of the second defendant; that the sums of Rs. 7,50,000 and Rs. 3,75,000 due to plaintiff and the second defendant should be taken by the company in part payment of the passage one, also a sum of Rs. 1,00,000 due to the plaintiff; that the balance required to make up the Rs. 14,00,000 should be paid by plaintiff and second defendant; and that a trust deed should be executed by the company, whereby the property of the company should be conveyed to trustees to be held by them in trust for the debenture-holders. In pursuance of the agreement, the debentures and a trust deed were prepared and approved, and the 21st December, 1881, was fixed for the completion of the transaction. Questions, however, arose between the parties as to the registration of the debentures. Plaintiff and the second defendant were desirous that the debentures should be registered at the cost of the company, but the latter declined to agree thereto. Though several proposals had been made, no settlement had been arrived at. The plaintiff was willing to carry out his part of the agreement. The company had taken no steps to compel the second defendant to carry out his part, and the plaintiff believed that they were acting in collusion. The plaintiff believed that, by reason of the conduct of the second defendant and the company, he had already sustained loss and damage which he estimated at Rs. 37,625.

By consent of all parties his lordship made a consent decree to-day to the following effect. That the contract for the purchase of the debentures for Rs. 14,00,000 should be carried into effect and completed upon the terms mentioned in the consent decree. Certain alterations were to be made in the 2,800 debentures for Rs. 500 each; and the debentures were to be reprinted, stamped, and executed in due form by the company within two months from the date of the decree. The reconveyances and the trust deed should be executed and registered, and the debentures issued by the company to plaintiff and second defendant within fourteen days from notice. At the date of completion, the accounts between plaintiff, the second defendant, and the company should be adjusted on the footing mentioned in the consent decree. The former two parties to pay for the debentures without requiring the company to register them at the company's expense. The company should pay the costs of the plaintiff and second defendant of and incidental to the reconveyances, the trust deed, and the debentures up to the present date. That the company should also pay the costs of the plaintiff and second defendant subsequent to the decree. The plaintiff and second defendant should bear the expense of reprinting the debentures.

**THE INDIAN REVIEW,**

CONTAINING THE

"CREAM"

OF CURRENT LITERATURE,

EDITED BY

F. J. ROWE, M. A., & W. T. WEBB, M. A.

WHICH—in addition to a *resumé* of current events to be entitled "THE MONTH" and REVIEWS and NOTICES of WORKS published in India—will contain the CREAM or essence of all the best Reviews and Magazines, Quarterly, Monthly, and Weekly, appearing in Europe and America; thus presenting, as far as may be possible, a MICROCOSM OF CURRENT LITERATURE, SCIENCE, FINE ART, MUSIC, NEW INVENTIONS, ASTRONOMICAL, GEOGRAPHICAL and LITERARY NOTES and GOSSIP, NOTICES of NEW WORKS, FICTION, POETRY, TRAVEL, Etc., Etc.

It is believed that this REVIEW, which will be ably and carefully edited, will enable men whose pursuits occupy them too entirely to allow of much time being given to reading to keep abreast of the current literature and thought of the day, and will assist them in the selection of such books as will suit their individual tastes or wants.

"CREAM," which will be a "MONTHLY," will be printed in large type, on good paper and will contain about one hundred and fifty pages, royal octavo size, similar to the *Nineteenth Century*, *Contemporary* and *National Reviews*, and will be stitched, like them, in a stout serviceable cover.

Great care and trouble have been taken to secure able collaborateurs, and the Review will in all respects be so compiled, arranged and printed as to bear favorable comparison with the best publications of the kind, its scope and intentions being considered. Further, as containing the essence of all, it will be a publication unique in its line; and, should the Proprietors meet with the support they confidently anticipate, they are sanguine enough to believe they will be able to make it a popular and abiding institution in India.

## CHRONOGRAPH WATCHES,

OF A NEW AND IMPROVED SYSTEM.

WE have just received a consignment of NEW RACE OR CHRONOGRAPH WATCHES which for durability, accuracy, precision, and convenience leave nothing to be desired.

The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.

The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.

All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.

They are in stock—

DR. J. COLLIS BROWNE'S CHLORODYNE
THE ORIGINAL and ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 33, Great Russell-street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralagia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera and Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodine" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.
